

INTERN INDUSTRIAL ENGINEER (part-time)

Tectran presently has a team of talented individuals who manufacture, warehouse and distribute parts for the Heavy Duty Truck and Trailer Market. While our primary manufactured products relate to the air and electrical tractor-to-trailer hookup lines, we also supply a range of over 7,500 parts to this market.

We are looking for an Intern who is enrolled in the Industrial Engineering program who is willing to assist our current staff on a part-time basis (hours will be based on the student's class schedule and availability). The work will include process flow and work studies.

TECTRAN IS AN EQUAL OPPORTUNITY EMPLOYER!

Please send resumes to jobs@tectran.com.
